

## Viewing the catalogue using Internet Explorer v6

If you are having problems viewing the multimedia library catalogue, it is probably because you are using Internet Explorer version 6. To see which version *you* are using, go to:

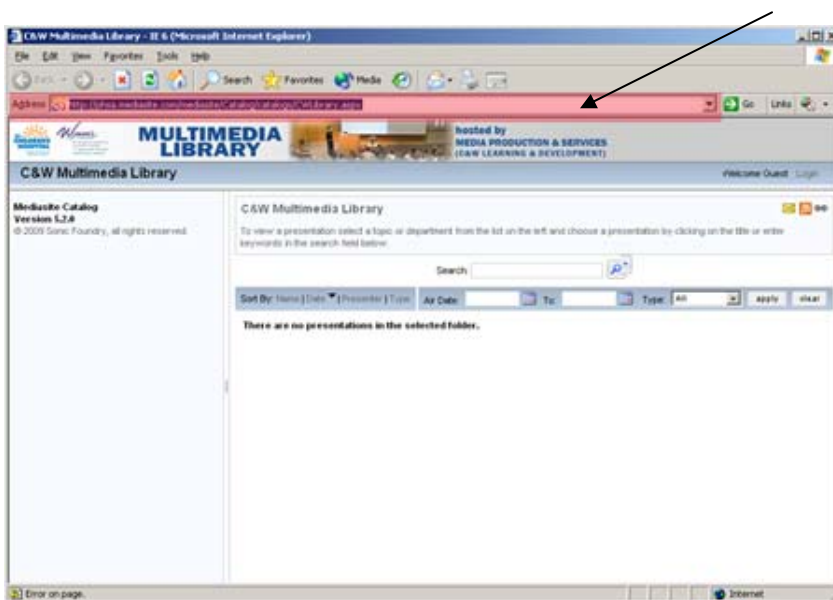

Help > About Internet Explorer

The catalogue *will* display in IE6, but there is a simple step you need to take to gain access to the folder list, where you will be able to find and view presentations.

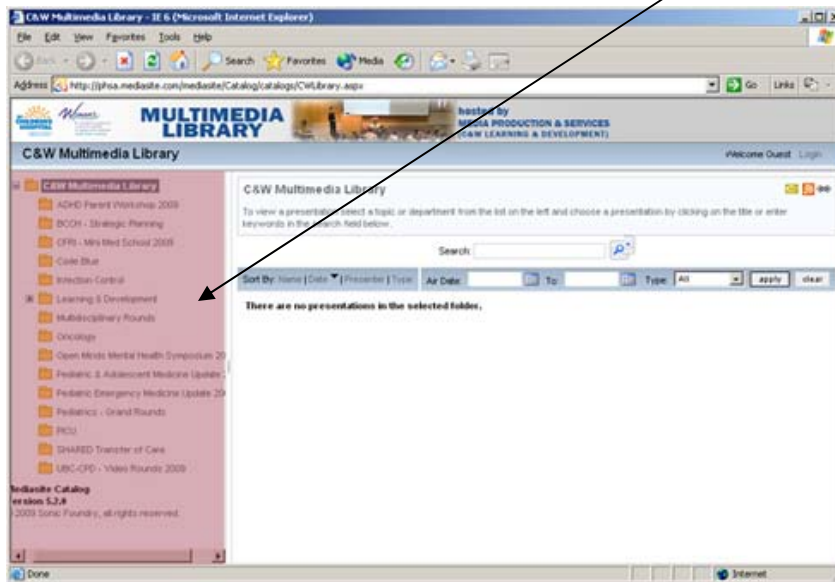

1. [Click on the link to open the multimedia library](#). A new window will appear, and you will see a screen like this:

2. Click in the address bar to highlight the address, as shown below:

3. Hit Enter, and the page will reload with the folder list visible
