Welcome to SPDC's 2010 catalogue. Please familiarize yourself with the information on page 2 before ordering. We look forward to serving you.

Special Products Distribution Centre (SPDC) is a specialty shop that carries an extensive line of nutritional products and feeding-related supplies for individuals under the care of a physician or Registered Dietitian. A referral form is required for some products while standard formulas do not require a prescription. As well, we offer breast pumps for rental and purchase. No referral is needed for this service.

Our catalogue provides accurate information at the time of printing. However, products, prices, and hours of operation, such as those during the December holiday period, are subject to change. Please visit our website for the most up-to-date information.

To find us online, go to: www.bcchildrens.ca/spdc

Our catalogue lists products that are kept in stock as well as many that can be ordered. If you cannot find an item, please do not hesitate to ask if it may be available. Special orders may take one to three (3) weeks to receive in SPDC so it is advisable to order well in advance and to keep an adequate supply on hand. Products are sold by the case unless otherwise indicated. To improve our ability to serve you, please call ahead when picking up products in person at SPDC.
