### Orientation and mobility: Moving towards independence, the early years / Matsuba, Carey / 2007

An award-winning 25-minute video promoting Orientation and Mobility from birth, Orientation & Mobility, often referred as O&M, is the ongoing development of skills to assist children with visual impairment to move as safely and independently as possible. Through activities that encourage freedom of movement, children who are visually impaired can gain a better understanding of the world around them and learn to move confidently.

Description: 1 DVD (25 min.)

Price: \$55.00
