

# Another Meaning For Homework

Getting ready for your career starts early. Take as many opportunities to learn as you can.

**EXERCISE:** You can begin to practice job skills by taking responsibility for work at home. Do your friends or siblings have jobs at home or in your neighbourhood? Negotiate a set of jobs with your parents. *Keep a list of what you do for the home. Perhaps you can negotiate payment for your work or consider your work what you contribute to your family. Then, practise managing all your MONEY.*

Keep a record of your work
