

FAMILY ROLE

PREPARING FOR THE TRAINING SESSION

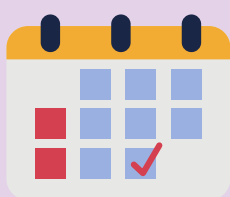

1) Complete **Seizure Action Plan** with School. Include prescribing healthcare professional (e.g. Neurologist)

2) **If your child is ordered Midazolam:** Mark off child's 3mL syringe as per the doctor's order

3) Ensure the correct medications and all supplies needed for administration are at school

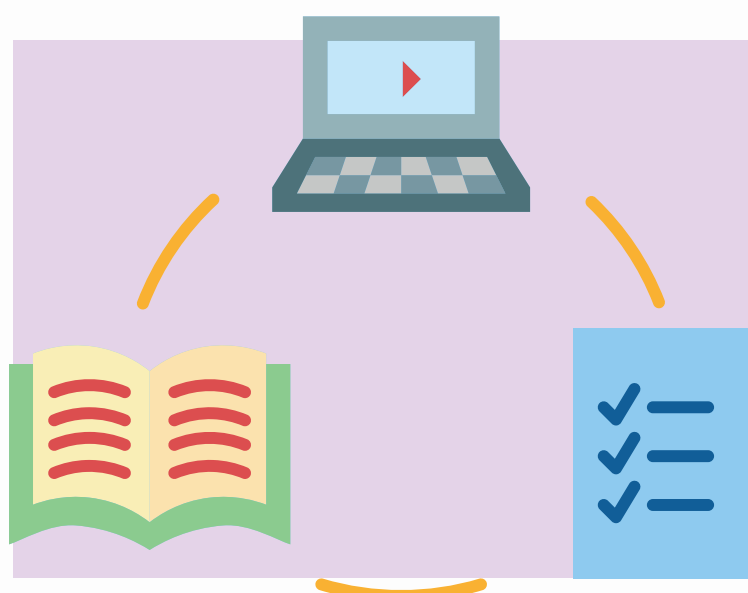

4) Be present at your child's session as your attendance is mandatory.

AT THE TRAINING SESSION

Be ready to describe your child's seizure behaviors

Review your child's seizure action plan:

Confirm your child's rescue interventions (including medication administration instructions)

Confirm when to call parent or other emergency contact

Confirm when to call 911
